

ADMINISTRATION REPORT

ON THE

BOMBAY JAIL DEPARTMENT

FOR THE

YEAR 1905.

I 10

9-7-1905

BOMBAY:

PRINTED AT THE GOVERNMENT CENTRAL PRESS.

1906.

CONTENTS.

PART I—(*Report*).

	PAGE
Introductory and explanatory paragraphs	1
Admission and disposal of prisoners	1 & 2
Religion, age, education and previous occupation of convicts	3
Numbers according to nature and length of sentences	8
Previous convictions	3 & 4
Escapes and recaptures	5
Offences and punishments	5 to 7
Imposition of fetters	7
Remission System	7
Convict Officers	7
Diet	7
Under-trial prisoners in Prisons, Subsidiary Jails and Lock-ups	7 & 8
Civil prisoners	8
Total expenditure incurred	8 & 10
Employment of convicts	10
Manufactures and earnings of prisoners	10 to 12
Net cost	12
Health of prisoners	12 to 15
Official and non-official visitors	15
Buildings	15 & 16
Miscellaneous remarks and inspections	16

PART II—(*Statements*).

General Summary showing the distribution of prisoners of all classes	18 to 21
--	----------

Do. B.—Showing condition of convicts discharged	... 74 & 75
Do. C.—Showing working of the Mark System	... 76 & 77
Do. D.—Showing the nature of the crimes for which convicts were imprisoned.	78 to 93

FROM

H. N. ALEXANDER, Esquire,
Inspector-General of Prisons,
Bombay Presidency ;

To

THE SECRETARY TO GOVERNMENT,
Judicial Department,
Bombay.

*Inspector-General of Prisons' Office,
Poona, 5th April 1906.*

SIR,

I have the honour to submit the Annual Administration Report, together with the usual statistical tables, on the Prisons and Jails in the Bombay Presidency (including the Province of Sind and the Settlement of Aden) for the year 1905. Major J. Jackson officiated as Inspector-General of Prisons throughout the year.

JUDICIAL.

2. The number of Central, District, Special and Extra-mural Prisons has undergone no change during the year under report. The statistics of all the 3rd Class Subsidiary Jails have been grouped together with those of Lock-ups as was done during previous years. The revised forms, registers, etc., for the use of 3rd Class Subsidiary Jails sanctioned by Government, *vide* Judicial Department Resolution No. 6180, dated 23rd November 1903, were introduced during the year under report. The 2nd Class Subsidiary Jail at Bhusawal was abolished on 15th August 1905, under the orders of Government contained in Judicial Department Resolution No. 3432, dated 11th July 1905. The Civil Jail at Násik was established during the year under report, *vide* Judicial Department Resolution No. 3813, dated 31st July 1905.

3. From the general summary preceding the statement in the appendices to this report, it will be observed that the total population of all classes of prisoners confined in Prisons, Subsidiary Jails, Lock-ups and Civil Jails during the year 1905 has been 91,457 as against 93,615 in 1904, a decrease of 2,158. The daily average population has been 9,168 as compared with 9,058 in the previous year, an increase of 110.

4. The following table, which compares the figures of the past two years, Statement No. I.—Admission and disposal of convicts, refers to the admissions of convicts into Prisons and 1st and 2nd Class Subsidiary Jails only :—

				1904.			1905.		
				Males.	Females	Total.	Males.	Females.	Total.
Number remaining on last day of previous year.	Prisons	...	..	7,326	209	7,535	7,493	226	7,719
	Jails	...	...	374	21	395	278	10	288
Imprisoned during the year.	Prisons	...	...	13,289	932	14,221	13,704	1,129	14,833
	Jails	...	...	2,020	203	2,223	1,877	196	2,073
Total	Prisons	...	...	20,615	1,141	21,756	21,197	1,355	22,552
	Jails	...	...	2,394	224	2,618	2,155	206	2,361
Grand Total				23,009	1,365	24,374	23,352	1,561	24,913
Daily average number				7,678	229	7,907	7,652	276	7,928

5. There has been a small increase in the number of admissions of convicts. The increase under admissions is most noticeable in His Majesty's Common Prison, the Central Prison of Hyderabad and the Shikharpur Prison. The reason for the increase in the first named Prison is due to more extensive prosecutions of beggars and hawkers by the Police. No particular cause can be assigned for the rise in the other two Prisons. There is a decline in admissions in the Dhulia Prison and the Central Prison of Ahmedabad. In the case of the former it is due to fewer prisoners being admitted under the A'bkari Act, while in the case of the latter it is attributed to a favourable monsoon. There has been an increase in the admission of female prisoners. 1,325 females were admitted in the year under report against 1,135 in 1904. This is due to larger admissions of females into His Majesty's Common Prison, Bombay.

6. With regard to the disposal of convicts, the increase is mainly visible

Government Memorandum, Judicial Department, No. 6369, dated 4th December 1905.

under "Transferred to other Jails to undergo sentences" and "Transported beyond seas". The increase under "Transfers, etc.," is due to the moving of a large number of prisoners from the two Bombay Prisons to the Deccan Gang to relieve overcrowding and from the Central Prison of Hyderabad and the Prison at Shikarpur to the Sind Gang for employment on ballast work undertaken by this Department. Besides this prisoners sentenced to judicial solitary confinement had frequently to be transferred from Bombay as their sentences could not be carried out in the Bombay Prisons for want of cells. During the year 1904 transports were not sent to the Andamans for the reasons given in paragraph 7 of last year's Administration Report, while a batch of 185 males and 11 females was sent in April 1905. Of the 23 prisoners released by order of Government on account of sickness and on other grounds, *vide* communications from Government noted in the margin, 4 males and 2 females were released on the ground of sickness—one male each from the Central Prisons of Yeravda and Hyderabad, the House of Correction and the Dhárwár Prison. One female prisoner was released from the Ahmedabad Central Prison and one was set at liberty from the Thána Special Prison by order of the District

Magistrate, Thána, under the authority vested by Government Resolution, Judicial Department, No. 6, dated 3rd January 1898. Three unfit life transports and one juvenile were released from the Yeravda Central Prison and 13 *ex*-military convicts were sent to England from the House of Correction a few days prior to the completion of their sentences. The heading "Executed" shows an increase of 7 over the figures for the year previous. Eleven executions were carried out in the Dhárwár Prison against 2 in the year previous. There are no Burmese prisoners now in confinement, all of them having been sent back under the terms of Government Resolution, Judicial Department, No. 977, dated 24th February 1905. There was one State prisoner in confinement at the close of the year.

7. It will be observed from the figures appearing in the marginally noted statement that an increase appears under the heads "Europeans" and "Mahomedans" under "Religion", while there is a decrease under males "Hindus and Sikhs". There is a rise under females "Hindus and Sikhs", for which the Common Prison is mainly responsible.

Statement No. II.—Religion, age, education, and previous occupation of convicts.

8. The number of juveniles received during the year under report shows a fall of 61. Of the 116 male and 33 female youthful offenders convicted, 89 males and 26 females were sentenced to one month and under, 17 males and 5 females to above one month and under six months, and 10 males and 2 females to over six months. Of the above number, 18 juveniles had previous convictions. The increase in the year 1904 was specially brought to notice in last year's report and Government were pleased to draw the attention of the Magistrates to the matter pointing out that children should only be sent to Prison when it was impossible to deal with them otherwise, *vide* paragraph 3 of Government Resolution, Judicial Department, No. 2590, dated 24th May 1905. This accounts for the decline under this head. The sub-head "15 to 40" shows an increase due to the increase under admissions, while the remaining two sub-heads show a small decrease. Under the head "Education of convicts" the sub-head "Illiterate" shows an increase of 445. Under "Previous occupation of male prisoners" the sub-heads "Persons in service or performing personal offices", "Persons engaged in agriculture and with animals" and "Miscellaneous persons not classed otherwise" show an increase, while the remaining four heads show a decline. Under "Females" the sub-head "Married" shows a decline, while the remaining sub-heads show an increase, the most marked being under "Prostitutes". This is due chiefly to larger admissions in His Majesty's Common Prison, Bombay. The percentage of the total number admitted to free population according to the census of 1901 is 0.163 during the year as compared with 0.160 in 1904.

9. There has been a marked increase under the heads "Not exceeding one month," "Above six months and not exceeding one year" and "Above two years and not exceeding five years" and a slight increase is visible under the

Statement No. III.—Nature and length of sentences.

heads "Above five years and not exceeding ten years" and "Sentenced to death." All the other heads show a decline. The increase under the first head is mainly due to larger number of short termers having been admitted into His Majesty's Common Prison, Bombay. The Prisons of Dhárwár, Shikárpur and Hyderabad Central Prison are responsible for the increase under the second head "Above six months and not exceeding one year". The Common Prison, Yeránda Central Prison and Dhárwár Prison show an increase in the third heading "Above two years and not exceeding five years". The number of prisoners sentenced to simple imprisonment and rigorous imprisonment shows a marked increase, while there is a slight increase under those sentenced to rigorous imprisonment with whipping. 436 prisoners were sentenced to rigorous imprisonment with solitary confinement as compared with 335 in 1904, 46 in 1902, and 30 in 1901.

10. The number of habituals indentified by the Jail Officials after arrival in jail has risen from 448 in 1904 to 565 in the year under report. Out of a total number of 2,488 previously convicted prisoners admitted during the

Statement No. IV.—Re-convictions.

year under report, the number classified as habituals was 1,323 against 1,181 out of 2,408 in the year previous. The increase under reference was anticipated in paragraph 13 of last year's report.

		1904 ...	14,221	1,914	448	46	2,408	1,181
		1903 ...	13,394	1,948	521	40	2,503	1,288

11. It appears from the information supplied by the Inspector-General of Police that there has been an increase of 198 in the number of prisoners who were identified in the Bombay Presidency inclusive of Sind by means of finger-tip impressions. Out of the 826 prisoners thus identified, 144 were identified in Bombay, 135 in Ahmedabad, 80 in Yerávdá, 63 in Dhulia, 51 in Násik, 48 in Thána, 42 in Bijápur, 38 each in Dhárwár and Sholápur, 37 in Sátára, 35 in Ahmednagar, 31 in Belgaum, and the rest in other parts of the Presidency.

12. The number of escapes during the year under report has been 9 against 12 in the year previous. Of the 9, 3 prisoners got away from inside and 6 from outside the Jails. Of the former, 2 escaped from the Dhárwár Prison and 1 from the Subsidiary Jail of Ahmednagar. The 2 escapes from the Dhárwár Prison were effected from the quarantine yard which is outside the main prison. One of the prisoners was immediately captured and prosecuted under Section 224, Indian Penal Code, and sentenced to 6 months' rigorous imprisonment. The escape from the Ahmednagar Jail was effected from the garden in the Jail. The prisoner was recaptured almost immediately. The warder in charge was departmentally punished, while the recaptured prisoner was prosecuted and sentenced to 3 months' rigorous imprisonment. Of the 6 escapes from outside of the Jail, 2 prisoners got away from the Kárwár Prison, 1 each from the Prisons of Bijápur, Dhárwár and Yerávdá, and 1 from the Subsidiary Jail of Alibág. In all cases the warders and convict officers responsible for the escapes were either prosecuted or departmentally punished. Of the 9 prisoners who escaped during the year, 7 have been recaptured.

13. The statement noted in the margin relates to the offences committed by, and the punishments awarded to, convicts confined in the Prisons and 1st and 2nd Class Subsidiary Jails. The offences dealt with by Criminal Courts show an increase of one over the figures for the year previous as will be seen from the details given in the margin.

Section 52, Prisons Act.

	1904.	1905.
Relating to work ...	1	13
Do. all other breaches of Jail rules...	5	3

Indian Penal Code.

Attempting at escape ...	3	1
Attempt to murder ...	1	...
Allowing to escape ...	4	...
Assault ...	1	...
Theft ...	1	...
Neglect of duty ...	1	...
Total ...	23	24

There is a marked increase under the heading "Relating to work" due to 10 prisoners having been prosecuted for persistently refusing to work in the Dhárwár Prison.

14. It will be observed from the subjoined table that the number of offences has risen from 12,978 in 1904 to 14,441 in the year under report. The increase under those dealt with by minor punishments is most marked in the first and last heads. The increase under the former head is due to punishments inflicted for failure to do full tasks and that under the latter to stricter discipline.

Offences dealt with—	1904.		1905.	
	23		24	
	Dealt with by minor punishments.	Dealt with by major punishments.	Dealt with by minor punishments.	Dealt with by major punishment.
By Criminal Courts ...				
By Superintendents—

Do. prohibited articles ...	1,561	435	1,712	505
Do. assaults, mutiny and escapes ...	108	163	88	178
All other breaches of prison rules ...	3,378	787	4,078	852
Total ...	10,200	2,778	11,801	2,640

15. The following table shows the punishments inflicted during the years 1904 and 1905. It will be seen that the total number of minor and major punishments awarded by the Superintendents was 14,624 and the total number of offences was 14,441. This difference is due to 183 offences having been dealt with during the year 1905 by the award of combined punishments.

				1904.	1905.
Punishments inflicted—					
By Criminal Courts				23	24
By Superintendents—					
Minor.	{ Warnings	...	...	1,772	1,911
	{ Penal diet	...	...	1,304	1,618
	{ Separate, cellular and solitary confinement	...	...	116	43
	{ Hand-cuffing and link fetters	...	...	2,294	2,541
	{ Other punishments	...	...	4,841	5,854
Total				10,327	11,967
Major.	{ Separate, cellular and solitary confinement	...	...	306	249
	{ Penal diet with solitary confinement	...	...	225	113
	{ Fetters or hand-cuffing behind or to a staple	...	...	1,487	1,657
	{ Corporal punishments	...	...	108	79
	{ Combinations of minor punishments	...	...	346	279
	{ Other punishments	...	...	322	280
Total				2,794	2,657
Grand Total				13,144	14,648

16. Of the 14,624 punishments awarded by the Superintendents of Prisons and Jails, 11,967 or 82 per cent. belong to the Minor class and 2,657 or 18 per cent. belong to the Major class. All the heads under Minor punishments show an increase with the exception of the heading "Separate, cellular and solitary confinement" which shows a decline of 73. This form of punishment could not be freely resorted to for want of sufficient cellular accommodation. So many prisoners are now sentenced to rigorous imprisonment with solitary confinement by the Courts and we have not, in consequence, sufficient accommodation for our punishments. (See the last three lines of paragraph 9.) This has been represented and Government have lately sanctioned the plans and estimates for the erection of 20 cells in Yerávdá. The House of Correction, Bombay, His Majesty's Common Prison, Bombay, and the Yerávdá Central Prison are mainly responsible for the rise. In the two former there were many punishments inflicted on account of short work done by prisoners. The Superintendent of the House of Correction had considerable trouble in getting full tasks out of prisoners whose work was to convert fibre into coir yarn. The rise in the Yerávdá Central Prison is noticeable under "Other Punishments" which is due to many prisoners having been punished for leaving files, bathing at wrong times, etc. The total number of major punishments shows a decline. The headings "Separate, cellular and solitary confinement" and "Penal diet with solitary confinement" show a fall and the reasons given above hold good in these cases. The heading "Corporal punishments" shows a decline of 29 over the figure for year previous. This decline is noticeable in the House of Correction, Bombay, and Central Prisons of Yerávdá and Ahmedabad. This was anticipated, *vide* letter No. 1239, dated 11th February 1905. The Aden Special Prison shows an increase under this heading. The Superintendent of the Prison informed me that he had had a good many turbulent Somalies in the Prison and that he had to flog in consequence rather often in order to enforce discipline. There was a considerable decrease in punishments at the Central Prison, Ahmedabad. The Superintendent writes.—"The prisoners appear to have settled down to the new scale of tasks which I introduced and to more rigid discipline." Out of the total number of 14,624 punishments, 4,326 were awarded to habituals which gives a ratio of 29.6 per cent. The number of habituals to whom the above number of punishments was awarded was 1,525.

17. The subjoined table furnishes particulars as to the number of stripes inflicted on prisoners during the year 1905 as compared with the figures for the year previous :—

		1	2	3						4	5	6	
		* Total number of male prisoners for the year.	Total number of prison offences.	Total number of prisoners punished by whipping						Percentage of column 3 to column 1.	Percentage of column 3 to column 2.	Number of prisoners in whose case (a) death or (b) illness was directly or indirectly the effect of corporal punishment.	
				5 to 10 stripes.	Above 10 to 15.	Above 15 to 20.	Above 20 to 25.	Above 25 to 30.	Grand Total.			(a) Death.	(b) Illness.
Total	1904 ...	20,795	12,807	19	25	23	23	16	106	0.5	0.8	1	3
	1905 ...	21,487	14,071	20	23	19	10	7	79	0.4	0.6	...	2

* The figures exclude the number of prisoners moved from prison to prison within the Department.

18. During the year under report 5,910 prisoners were fettered compared with 4,891 during the year previous. This is chiefly due to a greater number of prisoners having had to wear fetters as a punishment in the Common Prison, the House of Correction, Yeránda, Dhárwár and Thána. An increase in the prison population has also caused these figures to rise.

MARK SYSTEM.

19. It will be seen from the figures appearing in Statement C appended to this report that 2,342 prisoners were released during the year under report under the Remission System as compared with 2,267 in the year previous. The percentage during the year 1905 of those released under the Mark System to the total number who might have been released under that system if of average good conduct up to the date of release was 98.5 against 98.7 in 1904. The practice of mustering prisoners and reading and explaining to them the benefits of the Mark Rules has been continued during the year under report. The revision of the rules on the Mark System is now under consideration of the Government of India, *vide* Judicial Department No. 605, dated 3rd February 1906.

20. The average number employed as Prison Officers during the year 1905 in Prisons and 1st and 2nd Class Subsidiary Jails was 1,052 males and 10 females against 1,003 males and 12 females in the year 1904 or an increase of 42. There is also an increase under "Total number employed as Prison Officers." This is chiefly due to more convict officers having been employed in the Yeránda Central Prison for guarding small gangs of prisoners employed on new building works in the Prison and in the Hyderabad Central Prison on account of increase in population.

21. The statement quoted in the margin shows the different diet scales in use in Prisons and 1st and 2nd Class Subsidiary Jails. These scales have been found to work satisfactorily. Such changes as have been made during the year have been noted in the fifth column of the statement.

22. The statistics of the under-trial prisoners confined in Prisons, Subsidiary Jails and Lock-ups are given in the marginally noted statement. The number of prisoners admitted during the year shows a decline of 3,128 over the figures for the year previous, the decrease being most marked under 3rd Class Subsidiary Jails and Lock-ups. The daily average strength has however, risen from 1,068 in 1904 to 1,174 in 1905 due to increased admissions in Prisons and the 1st and 2nd Class Subsidiary Jails. The number of prisoners released during the year shows an increase, while those convicted and sentenced shows a decline. The increase under "Transferred" is most marked under 3rd Class Subsidiary Jails and Lock-ups.

23. The number of escapes has fallen from 14 in 1904 to 12 in the year under report. One prisoner escaped from the 2nd Class Subsidiary Jail of Surat, 4 from the Ratnágiri District, 3 from the Dhárwár District, 1 from the Násik District and 1 female from the Poona District. One male and 1 female escaped from the Lock-ups in the Broach District.

24. The deaths have also fallen from 28 in 1904 to 19 in the year under report. Of this number 1 male each died in the Common Prison and the Prisons of Karáchi and Shikárpur, 1 male each in the 2nd Class Subsidiary Jails of Násik and Sétára, 4 males died in the Sholápur District, 2 males in the Kolába District, 1 male each in the Hyderabad, Sukkur, Larkhana, Upper Sind Frontier, Ahmedabad and Kánara Districts, 1 female in the Dhárwár District and 1 male in the Lock-up in the Poona District.

25. The number remaining on 31st December 1905 was 184 males and 15 females in Prisons, 86 males and 8 females in 1st and 2nd Class Subsidiary Jails and 803 males and 41 females in 3rd Class Subsidiary Jails and Lock-ups, thus making a total of 1,073 males and 64 females.

26. In the beginning of the year 1905 there were 78 males and 1 female prisoner; 969 males and 3 females were received during the year, 995 males and 2 females were released, thus leaving a balance of 52 males and 2 females at the close of the year 1905. The daily average shows a decline due to smaller number of admissions. The total cost and cost per head have respectively been Rs. 5,732-10-6 and Rs. 86-13-9 during the year under report as compared with Rs. 5,909-9-11 and Rs. 71-3-2. The increase in the cost per head is due to smaller average number of prisoners confined during the year.

FINANCIAL.

27. The statements noted in the margin deal with the gross expenditure on account of convicted and undertrial prisoners confined in the Central, District and Extra Mural Prisons and the Subsidiary Jails and Lock-ups. The cost of Police Guards has been omitted as usual, except in the case of the Thána Special Prison and the Yeravda Central Prison where the guarding has, since April and November 1905 respectively, been undertaken by the Reserved Armed Warder Guard sanctioned in Government Resolution, Judicial Department, No. 2959, dated 29th May 1903, the cost of which is included under the head "Establishment". The realizations from the sale proceeds of garden produce has been deducted from the total charges. The gross expenditure during the year 1905 has been Rs. 6,99,829 and the cost per head Rs. 76-14-2 against Rs. 6,49,685 and Rs. 72-6-2 in the year previous.

Establishment. 28. The total cost under this head has increased by Rs. 4,357. This is due to the following causes:—

(a) Revised rate of salary and the arrears of pay sanctioned by Government—*vide* Notification No. 5288, published at pages 1396-1397, *Government Gazette*, Part I, of 12th October 1905—were drawn by the Superintendent, Central Prison, Yeravda.

(b) Entertainment of the Reserved Armed Warder Guard at the Yeravda Central Prison and the Special Prison, Thána.

(c) Higher rate of allowance, sanctioned in Government Resolution, Judicial Department, No. 3078, dated 8th September 1904, to the Medical Officer, Deccan Gang.

(d) Increment drawn by the Superintendent, Deccan Convict Gang.

The fall of Rs. 2,025 under Inspection and General Superintendence is due to the officer who was officiating for me only drawing acting allowance during the year under report.

Dietary Charges. 29. Both the total cost and cost per head under dietary charges have risen from Rs. 2,64,777 and Rs. 29-8-0 in 1904 to Rs. 2,90,088 and Rs. 31-13-11 respectively during the

year 1905. The increase is chiefly due to less favourable provisioning contract rates during the year under report.

30. The value of vegetables and other supplies from the gardens attached to our Prisons and Jails has increased from Rs. 16,767 in 1904 to Rs. 17,506 during the year 1905. The rise is principally due to better results shown by the gardens attached to the Prisons of Hyderabad, Thána, Shikárpur and Ahmedabad and the Sind and Deccan Gangs. The gardens attached to the 1st and 2nd Class Subsidiary Jails have not done well during the year owing to the scarcity of water.

31. The total cost under this head shows an increase of Rs. 883, due partly to the increase in sickness amongst prisoners and partly to the higher rates for food grains. The cost per head has risen by 10 pies as compared with the previous year.

32. The expenditure under this head shows an increase of Rs. 2,583 over the figure for the year previous and is due to the larger average number of prisoners, as also to the supply of new cotton and woollen clothing in the Central Prison, Hyderabad, the Shikárpur Prison, and the 3rd Class Subsidiary Jails. The cost per head has risen from Rs. 3-7-9 in 1904 to Rs. 3-11-6 in the year under report.

33. The expenditure under this head has risen from Rs. 17,862 to Rs. 23,352, or an increase of Rs. 5,490. The cost per head also shows a rise, the figures being Rs. 2-9-1 in 1905 against Rs. 1-15-10 in the year previous. The two Bombay Prisons are mainly responsible for the above increase. This was due to the payment of Rs. 7,096 to the Bombay Municipality for the treatment of prisoners suffering from plague, relapsing fever and small-pox in the Maratha and Arthur Road Hospitals, *vide* Government Resolutions, Judicial Department, No. 6680, dated 21st December 1904, and Nos. 4812, 5507, and 5780, dated, respectively, the 20th September, 21st October and 3rd November 1905.

34. This head shows an increase of Rs. 8,862 over the figures of the year previous, due to a larger number of transfers having been carried out as stated in paragraph 6 of this report and to the deportation of 196 convicts to the Andamans during the year against none in the year previous. The transfer of a larger number of prisoners from the 3rd Class Subsidiary Jails and Lock-ups, as will be seen from Statement No. XVIII, accounts for a considerable increase of expenditure in these institutions.

35. The total cost under this head shows an increase of Rs. 3,868 when compared with the figures for the year previous. The sub-heads responsible for the increase are "Money payments as rewards for re-captures and services," "Execution charges" and "Other Miscellaneous Charges." The increase under "Money payments, etc.," is chiefly due to more releases of convict officers to whom gratuity had to be paid. An increase in the number of executions carried out in the Dhárwár Prison, as stated in paragraph 6 of this report, swells the "Execution charges". The purchase of books for libraries and railway freight paid for sending convict clothing from one prison to another, the despatch of gallows from Yeravda to Aden and transit charges for medicines from Bombay to Aden have contributed, in a great measure, towards the rise in expenditure under "Other Miscellaneous Charges". Under the same head there has been a large increase in 3rd Class Subsidiary Jails and Lock-ups.

36. The expenditure and cost per head under this head has fallen from Rs. 3,849 and Re. 0-6-10 in 1904 to Rs. 3,041 and Re. 0-5-4 during the year under report. The decline in Prisons is due to there having been fewer transfers of subordinates and to the fact that during the year 1905 there was no transfer to or from Aden which contributed to increased expenditure in 1904.

37. This head shows an increase of Rs. 267. The cost per head has also risen from Re. 0-14-10 to Re. 0-15-1 during the year under report. This increase is chiefly due to the expenditure incurred under "Office furniture" in the Karáchi Prison.

38. There has been a decline during the year under this head both in the total cost and cost per head. The total cost has fallen from Rs. 4,683 in 1904 to Rs. 4,009 during the year under report. With the exception of sub-heads "Lighting Dead Stock," "Disciplinary Dead Stock" and "Dairy Live Stock," all the heads show an increase. The purchase of conservancy pans for the Yeravda and Ahmedabad Central Prisons chiefly accounts for the increase under "Conservancy and Water-Supply Dead Stock." The rise under "Dietary Dead Stock" is due to the purchase of cooking pots for the Common Prison and Deccan Gang and the supply of zinc pots and plates to the Ratnágiri and Aden Prisons and the Central Prison of Hyderabad. The increase under "Hospital Dead Stock" is due to the purchase of an operating table for the Yeravda Central Prison. The rise under "Garden and Agricultural Plant" is due chiefly to the Yeravda and Hyderabad Central Prisons, the Prison of Dhárwár and the Deccan Gang, where garden and agricultural implements, such as ploughs, leather moats, etc., had to be purchased during the year under report. Under "Arms and Accoutrements" the rise is due to the cost of the new muskets which were supplied to the Jail Department under the orders conveyed in Government Resolution, Judicial Department, No. 7353, dated 24th November 1902. Under "Draught Cattle, etc.," the rise is due to purchase of bullocks for the Yeravda Central Prison and the Deccan Gang. The general decline in the total cost is due to the amounts realized by the sale of "Dairy Live Stock and Plant" of the Dhárwár Prison and the tread mill of His Majesty's House of Correction being deducted from the total cost.

39. The average number of convicts sentenced to labour in Prisons shows an increase of 17, while under 1st and 2nd Class Subsidiary Jails there is a decline of 14 under the figures for the past year. The cause of rise under "Prison Officers" has already been stated in paragraph 20 of this report. The increase under "Additions, Alterations and Repairs" is due to larger number of prisoners having been employed in making certain alterations in the Central Prison of Yeravda.

40. The statement noted in the margin deals with the net cash earnings of convicts sentenced to labour. The cash earnings during the year under report have fallen from Rs. 2,08,791-11-0 to Rs. 1,18,267-9-0. It will be seen from paragraph 43 of last year's Administration Report that a sum of Rs. 1,13,430-14-0 was adjusted on account of the value of printed forms and books that were in stock at the Central Prison, Yeravda, at the end of June 1904. Deducting this figure, we find that the actual profit for the year 1904 was Rs. 95,360-13-0. The cash earnings in this year exceed the actual cash earnings for the year 1904 by Rs. 22,906-12-0. This is chiefly due to a great deal more work having been done in the Press at Yeravda. There is a marked increase in the profits of the Thána Special Prison and in the Ahmedabad Central Prison. In the former it is due to a large increase in orders and in the latter to large orders for regimental carpets and to the brick making industry which has been introduced in that Prison. The Prisons of Bijápur, Kárwár and His Majesty's Common Prisons, Bombay, also show better results. The decline in the Hyderabad Central Prison, and the Prisons at Dhulia, Dhárwár, Ratnágiri, Shikárpur and Karáchi is, in a great measure, due to the value of the stock of raw materials, manufactured articles or outstanding debts due to these Prisons being more towards the close of 1905 than was the case at the end of 1904. The fall in His Majesty's House of Correction is attributed to the purchase of a better class of coir at higher rates with sales at old rates. Thus the profits have fallen. The fall in both the Deccan and Sind Gangs will be commented upon later on. Out of a sum of Rs. 1,18,267, mentioned at the commencement of this paragraph, a sum of Rs. 1,07,228 represents the profits

of our Prison factories, Rs. 8,731 of extra-mural labour and Rs. 2,308 of our 1st and 2nd Class Subsidiary Jails factories.

41. Dealing with the cash earnings as shown in the statement, we find that the average cash earning per head of those sentenced to labour and of those employed on manufactures in the case of Prisons and 1st and 2nd Class Subsidiary Jails has fallen respectively from Rs. 26-13-0 and Rs. 74-14-0 in 1904 to Rs. 15-3-0 and Rs. 42-11-0 in 1905.

42. During the year under report Jail-made articles of the value of Rs. 18,221 were sold to Government Departments against Rs. 15,773 in the year 1904. Civil and Military Departments show an increase, while Public Works, Telegraph, Commissariat and Marine Departments show a decline. The figures for 1905 are:—Public Works Department, Rs. 2,982, Telegraph Department, Rs. 525, Other Civil Departments, Rs. 11,607, Commissariat Department, Rs. 147, Marine Department, Rs. 1,976 and Military Department, Rs. 983.

43. This Gang was located at Ganja Takar near Hyderabad throughout the year. The earnings of the Gang have fallen from Rs. 21,459 in 1904, with a daily average of 362 prisoners, to Rs. 3,719, with an average of 380 prisoners during the year under report. Up to 13th March 1905 the prisoners were working for the North-Western Railway. Subsequently they were employed on some stone work for the Local Fund Board of Tando Division in the Hyderabad District. The rates offered were extremely low, but, as the prisoners had no other work, they were accepted. The adjustment for this work is to be effected in April 1906 as no provision had been made in the Local Fund Budget in the financial year 1905-1906. The Gang has on hand for sale road metal worth Rs. 6,467. Lastly, a sum of about Rs. 1,544 due to the Gang for ballast work done on the railway was not adjusted during the year under report. It will be thus seen that the Gang earned considerably more than Rs. 3,719. During the year 1904 the Gang had steady work and a favourable contract, whereas in 1905 lower rates had to be accepted as there was difficulty in finding suitable work.

44. This Gang did not move its camp from Visapur in the Ahmednagar District during the whole year under report. With an average population of 876 prisoners the Gang has earned Rs. 4,225 in 1905 against Rs. 12,316, with an average population of 808 prisoners in 1904. The prisoners of this Gang had no remunerative employment for a short period during the year and consequently they were employed on making drains, etc. Besides the above the prisoners of the Gang were given trolley and cart work during the year from March to September 1905 at a very low rate. The earnings for November 1905 have not been included in the above figures as the adjustment was not effected before the close of the year.

45. The net profit of the quinine industry in the Central Prisons of Yeravda and Hyderabad during the year under report amounted to Rs. 2,192 against Rs. 2,299 in the year previous. The value of quinine and packing materials purchased during the year has been Rs. 19,791 against Rs. 15,040 and the amount paid into the Treasury during the year under report was Rs. 15,867 against Rs. 14,632 in the year previous. The system of supplying Post Offices with packages containing 7 grain packets instead of 5 grain packets, sanctioned in Government Resolution, General Department, No. 4550, dated the 27th August 1904, was introduced during the year. The old permanent advances of quinine held by the Post Offices had to be replaced by new ones: three packages containing 5 grain packets valued at Rs. 3 had to be sent in to us and in their place four packages containing 7 grain packets valued at Rs. 4 were sent out. This accounts for the great rise in the amount of outstanding debts due to the Department. Rather more quinine was purchased than was actually necessary, thus leaving us with rather a large stock in hand at the end of the year. The decline in net profits is thus accounted for.

46. The Yeravda Printing Press has, during the year under report, executed the following works in addition to supplying all requirements for the Jail Department:—

Magisterial and Police and Judicial Forms printed in four languages	...	...	7,544,094
Magisterial and Police and Judicial Books printed and bound in four languages	...	...	68,642
Stock envelopes printed for supply	...	...	8,435,590
Special envelopes	...	...	623,222
Deccan Agriculture Relief Act Forms	...	...	343,100

Registration Department.

Forms printed in four languages	...	...	64,800
Books printed in four languages and bound	...	...	2,175
Guard Books	...	...	Nil.

Stationery Department.

Guard Books	...	...	Nil.
Blank Books	...	...	Nil.
Miscellaneous Forms printed in all languages	...	...	82,428
Do. Books printed and bound	...	...	177,179
File covers	...	...	3,535
Blocks	...	...	1,097

At first sight it would appear as if the press had done less work this year. The figures given in paragraph 49 of last year's report however include the stock of forms, etc., valued at Rs. 1,13,430 which was brought to account in June 1904. If the actual amount done in 1904 is compared with that done during the year 1905 it will be found that a far greater amount of work was done in the latter year.

47. The marginally noted statement shows the total cost of maintenance of all Prisons, Subsidiary Jails and Lock-ups. The total expenditure, excluding Inspection and General Superintendence, has amounted to Rs. 6,65,041 in 1905 against Rs. 6,12,682 in the preceding year, or a rise of Rs. 52,359. The total cash earnings have been Rs. 1,18,268 against Rs. 2,08,792 in the year 1904. The average net cost to Government per prisoner has been Rs. 60-1-0 in 1905 as against Rs. 45 in 1904, or an increase of Rs. 15-1-0. The increase is mainly due to the fall in cash earnings and the rise in the cost of maintenance which has been fully explained in the earlier portion of this report.

VITAL.

48. The statement noted in the margin deals with the sickness and mortality amongst prisoners of all classes during the year. The following table compares the figures for 1904 and 1905 of prisoners confined in Central, District, Special and Extra-mural Prisons, Subsidiary and Civil Jails and Lock-ups:—

Year.	Daily average strength.	Admissions into hospital.	Daily average sick.	Total number of deaths.	Ratio of deaths per mille.
1904	9,058	5,285	202.4	183	20.2
1905	9,168	5,560	233.2	157	17.1

49. The following table shows the capacity of our Prisons, the daily average and the maximum number of prisoners confined in them during the year under report. The maximum number shown in this table has been taken in accordance with the orders contained in the Government of India Resolution No. 26, dated 17th January 1906, forwarded under Government Memo-

random No. 473, dated 29th idem. The accommodation of the Rájkot Prison has been reduced from 102 to 85 in 1905 as it had been reckoned too high :—

Prisons.	Capacity inclusive of hospital and cell accommodation.				Daily average.				Maximum population.			
	Males.		Females.		Males.		Females.		Males.		Females.	
	Con-victs.	Under-trials.	Con-victs.	Under-trials.	Con-victs.	Under-trials.	Con-victs.	Under-trials.	Con-victs.	Under-trials.	Con-victs.	Under-trials.
Common Prison	125	44	8	3	376	20	19	1	470	40	45	3
House of Correction	253	9	...	...	224	1	...	...	294	5	...	...
Yeravda	1,482	17	72	9	1,363	9	57	1	1,479	15	85	3
Dhulia	396	30	20	4	328	18	16	1	408	49	28	3
Bijapur	248	15	31	...	248	12	23	...	278	35	24	...
Dhárwár	290	6	34	6	289	11	17	1	536	38	33	3
Kárwár	209	13	30	...	115	2	1	...	140	14	3	...
Ratnágiri	203	7	13	5	90	4	12	1	108	17	14	1
Thána	655	...	75	...	557	3	39	...	708	9	46	...
Ahmedatad	852	20	47	10	793	18	43	1	972	29	56	3
Rájkot	68	9	7	1	93	7	7	...	104	30	11	8
Karáchi	364	14	28	6	223	20	1	1	248	41	5	5
Hyderabad	795	20	40	10	826	32	10	1	967	63	10	4
Shikárpur	397	14	17	5	499	28	11	1	635	60	16	2
Aden	81	...	3	...	67	1	1	...	80	1	1	...
Total	6,418	218	425	59	6,091	186	257	9	7,227	446	377	35

50. From the figures appearing in the above table it will be observed that, looking to the daily average number of prisoners, only His Majesty's Common Prison (52.5), the Prisons of Rájkot (0.0), Hyderabad (27.6) and Shikárpur (29.5) were overcrowded throughout the year. Out of these only the Common Prison exhibits a ratio of mortality in excess of 33.3 per mille of average strength.

51. Every endeavour has been made to obviate the overcrowding, as far as possible, by frequent transfers and use of work sheds for the accommodation of the excess population of our Prisons. The year 1905 opened with a population of 7,892 prisoners in Prisons and 425 in the 1st and 2nd Class Subsidiary Jails and closed with 7,929 prisoners in Prisons and 379 in the Subsidiary Jails of the 1st and 2nd Class.

52. From the figures in connection with the sickness and mortality amongst convicts and under-trials confined in Prisons during the past two years, it will be seen that, with the rise in the daily average strength during the year 1905, both the number of admissions into hospital and the daily average number of sick have respectively gone up from 5,271 and 202.4 in 1904 to 5,552 and 233.1 in the year 1905. The number of deaths has, however, declined from 182 in the past to 157 in the present year. The death-rate is the lowest in the last thirty years. As stated above the Common Prison is the only Prison which exhibits a ratio of mortality in excess of 33.3 per mille of average strength. There were in this Prison 23 deaths. Of these 6 were due to plague, 3 to tubercle, 2 each to pneumonia, diarrhoea and debility, and 1 each to small-pox, bronchitis, anaemia, dysentery, peritonitis, valve disease of the heart, remittent fever and hæmaturia. With regard to the sickness and mortality the Medical Officer remarks :—

“It is well known that the class of prisoners admitted to the Jail, in spite of superficial evidence of health, easily break down from constitutional and inherited taint due to the corruptions of life in an overcrowded Eastern City.”

The structural defects in the hospital accommodation referred to in paragraph 51 of the report for 1903 have been remedied during the year.

53. During the year under report there were 16 cases of plague in our Prisons and Subsidiary Jails of the 1st and 2nd Class of which 10 ended fatally. There were 8 attacks and 6 deaths in His Majesty's Common Prison, Bombay. Major Jackson writes :—

"Plague broke out in February. Rats had been much fewer in the Prison than some months before: they seemed to be deserting the place. Inoculation had not been carried out. On the occurrence of the outbreak all prisoners were inoculated and the disease ceased after 6 deaths. Two of these had been inoculated. Inoculation is now carried out systematically and I don't believe any further outbreak will occur. In addition to protecting the Prison about 4,000 criminals are every year practically rendered immune."

In the Deccan Gang a prisoner transferred from the Common Prison developed plague on the 11th day after his arrival and died. The two attendants (convicts) were also attacked but recovered. Two cases were recorded against the Aden Special Prison, of which one proved fatal. Both the prisoners had been inoculated. The fatal case was inoculated 5 days before death, the case that recovered some time previously. All prisoners were inoculated and plague ceased. There were two attacks and two deaths in the Karáchi Prison. The system of inoculating all prisoners had been abandoned and only new admissions were being done. After all the prisoners had been inoculated the outbreak promptly ceased. The only case of plague in the Ahmednagar Subsidiary Jail was discharged otherwise. I believe the case died in the Civil Hospital.

54. The following measures which were adopted during the year under report with a view to improve the health of prisoners confined in some of our Prisons and Subsidiary Jails are inserted in accordance with the orders contained in paragraph 1 of Government Resolution, Judicial Department, No. 9115 of 29th December 1896:—

- (1) Issue of wheat and rice in lieu of coarser grains when necessary.
- (2) Issue of extra rations to weakly and infirm prisoners.
- (3) Issue of 2 ozs. extra flour to working prisoners in the Deccan Gang.
- (4) Issue of quinine as a prophylactic.
- (5) Issue of potatoes and onions in lieu of green vegetables.
- (6) Inoculation with Professor Haffkine's serum.
- (7) Issue of extra warm clothing when considered necessary.

55. Reviewing the health statistics of Subsidiary Jails and Lock-ups, it will be observed that the total population has declined from 65,020 to 61,310, but the daily average strength and the daily average number of sick have respectively risen from 1,242 and 11.7 in 1904 to 1,303 and 17.5 in the year under report. The ratio of deaths per mille of average strength has, however, declined from 25.8 in 1904 to 15.3 in 1905.

56. From the figures appearing in the marginally noted statement it will be seen that there were no cases of cholera in any of our Prisons. There has been a decline in admissions under "Dysentery," "Tubercle of Lungs, Tubercular Phthisis and Hoemoptysis due to Tubercle," "Anæmia and Debility," "Pneumonia" and "Malarial Fevers." The decline under the last named disease is most marked and for this the Common Prison, Deccan Gang and the Prison of Dhulia are mainly responsible. The rise under "Other Respiratory Diseases" is so small that it does not call for any comment. The sub-heads "Other General Diseases," "Boils and Ulcers of all kinds" show a marked increase. The Yeravda Central Prison is chiefly responsible for the increase under these heads. The increase under Diarrhoea is due principally to the Yeravda and Hyderabad Central Prisons. The Medical Officer of the former Prison remarks that "Diarrhoea increased with advent of the rains, but its coming caused no alarm as every trivial case was at once attended to." The increase in the latter was considered due to unsatisfactory arrangements in cooking. This has now been remedied, and it is hoped that there will be a diminution under this head.

57. The general health of the House of Correction was much better than during 1904 and there was less overcrowding. The question of re-constructing the Prison is under consideration. The health at Dhárwár has improved, the death-rate being 12.5 against 20.4 last year. The Superintendent, by deepening

his wells, has now secured a very good supply of drinking water for the prisoners. Though the death-rate was slightly higher at Shikárpur, the general health was better, there having been only 141 cases in hospital against 237 in 1904. There were only 12 cases of Pneumonia against 19 in 1904 and 26 in 1903. There were also far few cases of ague, 51, against 87 in 1904. Cases of scurvy and rheumatism, 17 in number against 16 in 1904 and 3 in 1903, are being carefully watched by the Medical Officer. Though the death-rate at the Central Prison, Hyderabad (27·6) is somewhat better than in 1904 (33·3), the general health of the Prison is still not satisfactory. There were a good many cases of dysentery and diarrhoea. Major Jackson found that the dough was not being properly made. This is being attended to now and the results will be watched. The accommodation in the hospital is insufficient. This question and the provision of a proper night latrine will be dealt with when funds are available. The death-rate at Thána was 14·8 this year against 23·4 in 1904. Major Jackson writes :—“ This is the lowest death-rate the Thána Prison has ever recorded since 1876 and is eminently satisfactory and redounds to the credit of the Medical Officer and the Superintendent. Of the 9 deaths, 4 were admitted in good, 2 in fair, 2 in bad and 1 in indifferent health. Tubercle of the lungs continues to be the great source of mortality, four out of the nine deaths being attributable to this cause. Ague shows a marked diminution, 52 against 98 cases. There was much smaller rainfall than usual. I believe that the provision of a tubercle ward, the early isolation of cases, the renewal of every floor in the Prison and their thorough disinfection account for the marked diminution. The overcrowding of the Prison was only temporary, due to the presence of transportation prisoners. During the greater part of the year the population was kept well below 600.” The death-rate at the Sind Gang was 18·4 against 33·1 in 1904. The health on the whole has been satisfactory. Major Jackson writes : “ Pneumonia is the one cause of mortality and with this I will alone deal. To my mind the disease, though still occurring, is much milder in type. There was no virulent outbreak in the cold weather, but cases curiously occurred throughout the year, March, June and July accounting for a death each, August for 2 and December 1. Of these no less than 4 occurred in the hot weather in the tailor’s party, men put on light work for losing weight. In November 1904 I practically directed that half the Gang should sleep in open mandups, thus doubling the previous cubic capacity per prisoner in barracks, and I increased the ventilation by nearly 50 per cent. Owing to a misapprehension the Superintendent did not issue the mattresses for the prisoners then ordered by me. At my inspection last November I ordered this to be done and also the issue of warmer blankets, and some improvements in the cooking of the food were instituted. With lots of fresh air and the issue of mattresses and adequate clothing I am sanguine that pneumonia will cease to be a terror in this Gang.”

58. Out of a total number of 17,624 convicts who were discharged during the year, 9,708 or 55·1 gained weight against 54·5 per cent. in the year 1904; 2,957 or 16·8 per cent. lost weight against 18·4; 4,959 or 28·1 per cent. remained stationary as compared with 27·1 in 1904.

Statement B.

OFFICIAL AND NON-OFFICIAL VISITORS.

59. There were 297 Official Visitors during the year for 15 prisons and 13 Subsidiary Jails of the 1st and 2nd Class. Seventy-three Quarterly Meetings were held during the year and all were well attended. The visits paid by Official Visitors number 727 and those by Non-Official Visitors 238.

BUILDINGS.

60. The following allotments were sanctioned during the year under report :—

	Rs.
Constructing warders’ quarters and improving the Jailor’s bungalow at Dhulia	12,309
Making additions and alterations to the new Jail at Sukkur	12,309
Providing auxiliary girders to the work shed at Sukkur	3,044
Constructing the Press Manager’s quarters, Yeravda	9,665
Constructing quarters for the Press Establishment at Yeravda.	12,453

	Rs.
Providing additional accommodation for storage of forms in Yeravda Printing Press	37,873
Providing 8 cells in the Prison at Dhárwár	4,922
Constructing the Jailor's quarters at Bijápur	4,915
Constructing new Subsidiary Jail at Tando Adam in the Hyderabad District	6,092
Constructing quarters for the Warders and Clerks at the Kárwár Prison	10,212

61. In addition to the above, the whole of the Rs. 6,000 allotted for the discretionary grant has been expended during the year.

MISCELLANEOUS REMARKS.

62. During the year 1905 the following Prisons, Gangs and Subsidiary Jails were visited by Major J. Jackson :—

Central Prisons.	District Prisons.	Subsidiary Jails of 1st and 2nd Class.	Subsidiary Jails of 3rd Class.	Gangs.
Yeravda. Hyderabad. Ahmedabad.	Common Prison. House of Correction. Thána. Ratnāgiri. Dhárwár. Bijápur. Dhulia. Karáchi. Shikárpur. Rájkot.	Belgaum. Ahmednagar. Umárkot. Deesa. Wadhrwán. Godhra. Broach. Surát. Násik. Sholápur. Alibág.	Ahmedabad. Virámgam. Násik.	Deccan Gang. Sind Gang.

In addition to the above Jails, the State Jail at Palánpur was also visited.

63. Arrangements were made during the year to start at the Thána Prison a special class for first conviction prisoners of proved good behaviour who had completed two-thirds of their sentences, the number being for the present limited to forty. The underlying idea is to supply an additional incentive to good behaviour and to introduce a stronger reforming element into Prison discipline. These forty convicts, who are employed in the garden at Thána, are kept absolutely separate from the rest of the prisoners. They practically guard themselves and are allowed a good many privileges. They wear clothes such as would be worn by free men; they may purchase a limited quantity of tobacco and sweets; they receive better food and more marks; they can write and receive more letters; they can talk freely in their own class and cook their own rations. This class has been in existence for three months and the Superintendent writes that they have given no trouble whatever and have done very good work. The experiment will be watched with interest.

64. Another experiment is being tried. This is a special class at Dhárwár for juveniles. Major Jackson considered that some effort should be made to reform as many of these juveniles and young adults as possible. For neither juvenile nor young adult does any adequate accommodation exist in the Bombay Prisons. Where accommodation for juveniles does exist, the young first conviction offender is herded with the youthful habitual and is corrupted by the latter as effectually as he would be by an adult jail bird. Major Jackson suggested that selected juveniles and young adults should be drafted to Dhárwár Prison and there kept quite apart from other prisoners and taught carpentry. Here they will have a chance of learning a useful trade, while they will not come in contact with youthful habituals or ordinary convicts. Major Jackson's idea is of course the formation of a Juvenile Prison, the Borstal of Bombay. This class has only just been started.

I have the honour to be,

Sir,

Your most obedient servant,

H. N. ALEXANDER,

Inspector-General of Prisons,
Bombay Presidency.

STATEMENTS.

Shikarpur.—Four ozs. curds were issued to each prisoner twice a week in lieu of dal from 23rd May to 31st August 1905.

Karwar.—Rice is issued to all ordinary prisoners on Mondays, Wednesdays and Fridays, and jowari on the remaining days of the week.

Ahmedabad.—The early morning meal was increased by 2 ozs. and the midday and evening meal reduced by 1 oz. each.

Deccan Gang.—Two ozs. extra jowari flour was issued to all working prisoners during the whole year, 4 drs. extra oil to all working prisoners and 2 drs. extra oil to prisoners in hospital was allowed from 22nd June 1905. Onions in place of potatoes were supplied to all the prisoners from 15th January to 14th February and from 22nd July to 22nd September 1905.

Yardoda.—Convict overseers in this prison are given meat on Wednesdays along with convict warders.

(a) This scale was in force in all the subsidiary Jails except Wadhwan in which prisoners up to 2 years' sentence are confined and who are allowed the scales appearing in this statement for Native prisoners in District prisons.
